

POWER SPORTS ACCESSORY BUYERS GUIDE

POWER SPORTS ACCES

FACTORY MATCHED REGISTRATION KITS™

Every year we preview the new models of boats, pwc and snowmobiles to create Factory Matched Number Kits™ that compliment your vessel or snowmobile perfectly. Anything else is unmatched! Choose from any series, just peel and apply.

Complete sets of registration letters & numbers for your boat, pwc or snowmobile.

All series registration kits include:

- 4 sets of A-Z, 0-9. Total of 146 decals.
- Factory Matched colors from the manufacturer.
- UV coated, fade, fuel & scratch resistant. 3 inch legal size.
- Meets US Coast Guard guidelines when installed correctly.
- 100% Lead Free Inks

All our number kits are clamshell packaged for best results at retail.

SERIES 200

The original and still the most popular. Outline color shades into body color for that custom airbrushed look.

Choose a color that contrasts with the background application area

PART NO.	RETAIL
Series 200	\$18.99
*Chrome.....	\$22.50

**Made with real chrome material.*

SERIES 200EC

Economical one color kits with great style and solid colors.

PART NO.	RETAIL
Series 200EC	\$9.99

SERIES 300

The first and still the best Factory Matched Carbon Fiber™ look made. We make the ONLY carbon fiber pattern that looks great in any color you choose.

**Made with real chrome material.*

Use
STICKER-ON!
for easy installation
(see page 10)

PART NO.	RETAIL
Series 300	\$18.99
*Chrome.....	\$22.50

SERIES 320

Solid body with no shading and a contrasting outline with drop shadow in our popular block font. **Made with real glitter.*

**REAL
CHROME!**

PART NO.	RETAIL
Series 320	\$18.99
*Chrome.....	\$22.50

Choose a color that contrasts with the background application area

SERIES 350EC

Same font as our series 320 except no outline. Solid body color.

PART NO.	RETAIL
Series 350EC	\$9.99

POINT OF PURCHASE DISPLAY KITS

Decal Application & Removal!

STICKER-ON!™

Sticker-On! Decal Application Fluid.

We have taken the frustration away from decal applying. No more bubbled, misaligned or wrinkled decals. Curvy application areas are easier to do.

Simply spray **Sticker-On!** on the back of your decal and the application area, slide and position into place. **Sticker-On!** reactivates the adhesive in your decal when it cures. Environmentally friendly and comes in a convenient 2 oz. push pump recyclable bottle. Dealers save time and money, use our shop size for installing OEM replacement decals.

STICKER-OFF!™

Sticker-Off! Decal Adhesive Remover.

Remove old decal adhesive easily. No more sticky residue to mess up your new decals.

Simply apply **Sticker-Off!** onto adhesive residue, let it soften the residue for a minute and then wipe with a clean dry soft cloth. **Sticker-Off!** is environmentally friendly and comes in a convenient pour top recyclable bottle.

RX™

UV PROTECTANT CLEANER & POLISH

RX UV PROTECTANT CLEANER & POLISH™

Developed for the Marine industry RX has quickly become the standard for protecting plastic and metal surfaces found on Boats, Motorcycles, PWC, ATV's, UTV's and Helmets.

RX seals the surface with a micro-thin layer of UV protectant. RX restores nutrients that sun and water take away, just one use moisturizes and restores shine quickly and easily.

Use RX to clean and protect your plastic. Just spray and wipe.

- For use on Isinglass, Strata glass, plastic, stainless steel, aluminum, Gel-coat or any painted surface.
- Great for fairings, cowling, helmets, visors, fenders and any plastic or painted surface.
- RX is the most price effective alternative to other plastic cleaners on the market today.
- Provides 100% UVA and UVB protection.
- Cleans and protects from dirt, water spots, salt spray and grime.
- Use on vinyl glass routinely to preserve clarity. for boaters or ragtop automobiles this is a must!
- Rx conditions vinyl glass and helps avoid costly repairs from scratches and sun damage.
- Use RX on gauges, instruments, windscreens, bezels & trim to protect from the sun and add a shine to your surface.
- Anti-static formula reduces salt & dirt buildup. Dirt and grime wash away easier with RX on the surface.

TREAD DOCTOR KNOBBY CUTTING TOOL™

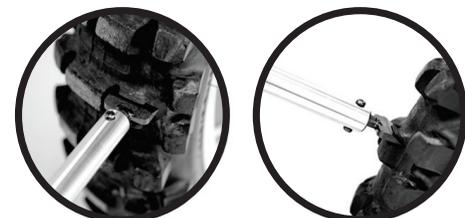

Get New Traction on Worn Tires!

This lightweight handy heated tool cuts new edges into your dull worn out knobby tires. Refresh your front or rear tire before putting a new tire on. Extends the life of your tire, quickly and easily.

Tread Doctor uses a specially designed heated carbide cutting blade to trim your knobby tire. It is easy to do yourself, just plug in and start cutting. With a little practice you can cut the minimal amount of rubber off each time to get a new edge for more traction.

It's like riding with a new tire every moto!

- Tread Doctor easily pays for itself by extending tire life and giving you improved traction.
- Tread Doctor blade easily resharpenes for years of life.
- Unit includes On/Off Switch and Holding Stand.
- Use it to cut tires for different conditions or after every moto.
- Tread Doctor™ is CE and ROHS Certified. All components used exceed industry standard for durability and enhanced functionality.
- Available in English, AU/NZ and Euro electrical versions.
- Second market that is served by Tread Doctor is Snowmobiles. New tracks are expensive plus labor and time. Tread doctor easily cuts new edges on the lugs of snowmobile tracks.

Use a scooping motion to cut in

UNIVERSAL TRAINING WHEELS

Now young children can ride on ANY entry-level motorcycle with the proven Universal Training Wheels from Hardline Products.

Whether the child's bike is a Honda®, Yamaha®, Suzuki® or any import 50cc entry-level motorcycle, the Universal Training Wheels system will allow for adjustability and adaptability. Universal Training Wheels allows you to adjust the wheel height and mounting position for your child's type of riding terrain as well as skill level. Easily make re-adjustments as your rider's skill level advances.

The Universal Training Wheels is truly "one unit" that meets the demands of the training wheel market, for all types of entry-level motorcycles.

The Universal Training Wheels will give children quality "seat time" to develop important riding skills while offering parents complete confidence and satisfaction. The greatest attribute of the Universal Trainer is just that, it is "UNIVERSAL". Now you don't have to worry about which motorcycle they ride just as long as it is a 50cc entry-level motorcycle you are good to go...go have fun!

- Fits on any 50cc Motorcycle
- Adjustable for Terrain and riders' skill level.
- Solid Steel Axle with CNC machined components for accurate fit.
- 8 inch pneumatic wheels with 4 ply tires.
- Sealed Ball Bearings
- Hardened fasteners
- Limited Life time Guarantee.

GUNNAR™ LANYARD KILL SWITCH SYSTEM

Gunnar Kill Switches are the only kill switch specifically designed to work safely and correctly with your electrical system. Gunnar Kill Switches shut off the engine the way the OEM designed it to be shut off. Don't risk your electrical system and your safety with any other unit.

There are two types of electrical systems used on powersports vehicles. Normally Open (N.O.) and Normally Closed (N.C.).

N.O. switches are the open type, they ground the ignition lead when the tether is pulled away from the bars.

N.C. switches work the opposite and are typically used on battery type ignitions which may have an ignition key as the identifier. Most newer, more complex electrical systems are N.C.

- Easily connects to electrical system
- Includes all needed hardware, wiring, connectors and lanyard
- Available in black, blue and red
- Chart on packaging helps you identify your electrical system

ROLLASTAND®

The answer to bikes without center-stands! The Rollastand® allows you to easily clean the grime from both front and rear wheels of your motorcycle without having to push the bike across the garage. No more pushing your bike around the shop. Also makes chain maintenance, inspecting tires and checking air pressure easier. Just roll the bike onto the stand and place on its' side-stand. Wheel spins, allowing you maximum access to clean easily. Works great for front or rear wheels. Two models to choose from: Sportbike, or Metric Cruiser & Harley®.

RS-1 Sportbike

- Designed for bikes without center-stands
- Easily clean front or back wheels
- Easy one person operation
- No danger of dropping bike
- Powder coated
- Sealed bearings
- Non-slip backing

RS-2 American & Metric Cruisers

- Makes whitewalls, spokes, chrome and rims easy to clean
- Works great for large touring bikes (Goldwing™, etc) in conjunction with the center-stand
- Use on any motorcycle
