

# The **MBRK Black Mamba Quad-E** Arrives in the US

**MBRK** will be bring its Quad-E to the United States through a partnership with Hardline Products. The Quad-E will be available for test rides at participating dealerships starting on the 25th of July and will come with an MSRP of **\$3499**.

The Black Mamba Quad-E was born in the rugged terrain of Africa and originally developed for nature conservation. It was successfully introduced into the South African market and is now set for global expansion. It is equipped with four 800W motors and a 60V battery to offer a product fit for work or play.

Accessories for the Quad-E includes a front rack, rear rack, seat and golf rack. Each accessory is designed to enhance the specific user experience.
