Replaces Gravely Apex Ikon Pro-Turn 42" 44" 48" 52" 60" 70"
Mod-GRT898-88599. Replaces Briggs and Stratton No. 1731185.

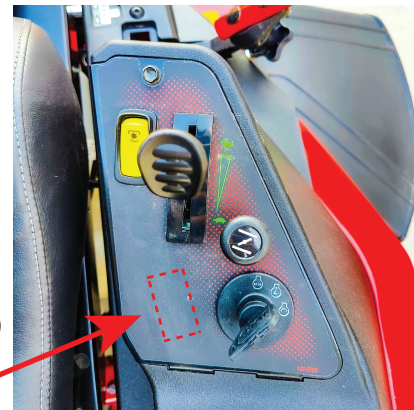

STEP 1:

Locate factory cut-out in panel of dashboard. This will be covered by a decal. You can feel cut-out below decal with your finger. See Pic A.

STEP 2:

With a razor blade or knife trace cut- out pattern and cut away the decal so the hole is exposed.

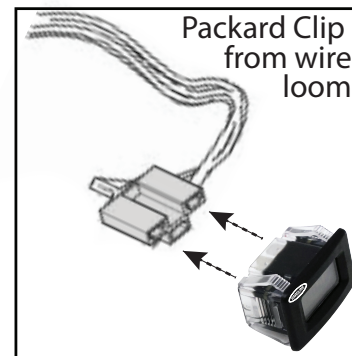

**PRE-INSTALLED
CUT-OUT.**

Pic A.

STEP 3:

Locate female packard clip in wire-loom just below cut-out hole. Remove zip-tie so clip will go up through hole in panel. Plug clip into back of meter. Pic B.

Pic B.

STEP 4:

Turn key on to test and start engine. Hour glass icon in the corner of meter should blink when key is on or engine is running. It will take 6 minutes of running to record .1 on the meter. Pic C.

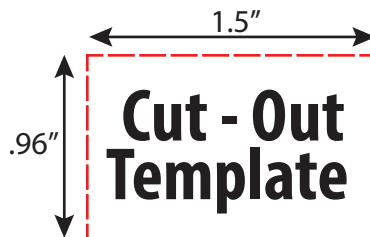

STEP 5:

Push meter down into dash so it is flush in dashboard. (Pic D.)
Use included maintenance log book to record services.

Pic C.

.1 = 6 minutes.
60 minutes/ hour = 1.0
